AT Tool for Interset

Professional setting tool for easy setting of interset cavity fixings. No screwdriver, no pressure, no fuss

Product information

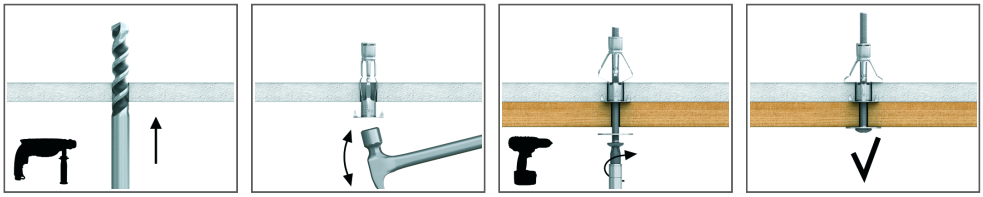
Features and benefits

- Setting tool used to pull the screw head and expanding the fixing body of interset cavity fixings
- No screwdriver needed for installation

Applications

- Shelves and bathroom accessories on standard plasterboard
- Fixing light shelving, brackets and hooks

Installation guide



1. Drill a hole of required diameter.
2. Insert the fixing into the hole. Tap in lightly, ensuring that the anti-rotation lugs penetrate the face of the base material
3. With the hole drilled and the fixing inserted, the setting tool is used to pull the screw head, thus expanding the fixing body
