TOOL POUCHES & HOLDERS

POUCHES & HOLDERS, BELTS & BRACES,
BAGS & CASES, GEAR & EQUIPMENT

TH3

TOOL HOLDERS 3rd GENERATION

History:

2002

RED RANGE

In 2002 Makita Australia Launched a small range of tool Belts & Pouches consisting of 7 Tool Belts, 12 Holders and 2 Tool Bags

2009

TEAL RANGE

In June 2009 Makita introduced the 2nd Generation of tool Belts & Pouches, 5 Belt and 18 Pouches
In 2011 this range expanded to 51 products
In 2014 this range expanded further with the addition of a further 25 products added to the range

2020

TH3
TOOL HOLDERS 3rd GENERATION

Now in the back end of 2020 Makita are using the nearly 20 years of experience supplying Tool Belts / Pouches / Holder / Bags and Totes to various Trades & Industries to launch the 3rd Generation of products to cater for the market demand of high quality new innovation and technologies for end users

- Holder For Chisel
- Holder For Pliers
- Carabiner Eylet

Technical Solutions:

STRAP / BELT SYSTEM

Strap Belt System with quick release buckles at the ends can be easily detached from the Tool Bags and worn on the waist as a light-duty tool belt. Fits all Tool Pouches and Holders as well as Tool Organizers.

HEAVY-LOAD SUPPORT SYSTEM

Heavy-Load Support System provides additional support for Super Heavyweight Tool Belt and Set by distributing weight between waist and shoulders. Comfortable to wear and reducing stress through the working day thanks to extra thick 20mm cushioning.

TOOL LOOPS SYSTEM

Tool Loops System is an innovative plastic tool rail. Allows user to place different tools in loops without adjusting. High quality material ensures long-lasting quality and durability. Combination of different sizes of loops, single or twin row system lets you easily place bigger or smaller tools into the right loops.

CBS BACKPACK CARRYING SYSTEM

Backpack Carrying System keeps shoulder straps of your backpack securely in place, and keeps your hands free. It's designed to shift the pressure and reduces fatigue on your shoulders. Includes a slide lock so it can be adjusted quickly

WATERPROOF BOTTOM

Waterproof Bottom is a high quality solution for tool bags – rigid, wear-resistant and waterproof it keeps tools dry and protected from damp and wet surfaces. The reinforced plastic base also helps you to keep your tool bag clean.

ANTI SLIP

Anti-Slip Solution minimises or even avoids workplace slip and fall accidents. The high quality polypropylene tape has a rubbery surface which helps to keep you tools in place and provides additional protection to help prolong the life of your products.

3 LAYERS

3L Technology is a unique 3-layer combination of polyesters and foam that provides extra cushioning. Designed to be tough and weatherproof, these amazingly light polypropylene panels are made up of three composite layers joined securely in a desirable configuration. The innovative feature of these structured core panels means that they can be formed into any shape.

REAL LEATHER

Real Leather is smooth on the outside with brushed suede on the inside. Strong and tough for a long life but soft and supple enough for lasting comfort, whilst providing excellent strength with added abrasion resistance. Heavy gauge leather has been selected for use in products requiring a thicker covering - 1.8 to 2.0mm - ensuring a top quality product.

DURABLE RIVETING

Durable Riveting gives truly unbreakable strength. Strong one piece self-punching rivets with washers used in all high stress areas. Washers for greater strength in strategical places are used on one or both sides, up and down. Waterproof Bottom is a high quality solution for tool bags

LOOP-CLIP SOLUTION

Loop-Clip Solution is an innovative system thanks to which, each pouch can be easily but securely attached to your belt. Unique locking system protects item from fall out when system is not attached correctly. Locking and unlocking has never been so easy.

ELASTIC LOOPS

Elastic Loops secures the contents and keeps your tools in place while carrying. It provides great flexibility for organizing your tools and accessories. Elastic Loops have been applied to a wide variety of our products to ensure that you get maximum usage from your kit. The loops are able to adapt to perfectly suit all tools and accessories.

SIDE-GATE SOLUTION

Side-Gate Solution lets you easily put the tool in without looking at the holder. An additional swing feature ensures your tool is kept at a comfortable angle. Made of stainless steel for product longevity and fixed by four rivets for extra strength

BELT LOOP HOLDER

Belt Loop Holder is a heavy-duty combination of steel D-ring with strong polyester tape to hang anything with carabiner. It keeps the item secure, allowing your pocket to be free for other accessories. Belt loop holder solidly slides onto the belt and stays there. You can use as many loops as needed - handy to hook on small accessories, knives and keys.

RAIL GUIDE SYSTEM

Rail Guide System is an extremely flexible organizational system in your case. A perfect combination of plastic side rails and light separating walls allowing the customisation of individual compartments. The separating walls are made of Triplex - an amazingly light polypropylene of 3 layer structured core panels. Each separator can be moved along rails assembled on side walls.

RAIL GUIDE SYSTEM

EASY ACCESS AND MAXIMUM ORDER

Rail Guide System

Is an extremely flexible organizational system in your case. A perfect combination of plastic side rails and light separating walls allowing the customisation of individual compartments. The separating walls are made of Triplex - an amazingly light polypropylene of 3 layer structured core panels.

*Tools and accessories are not included.

TOOL LOOPS SYSTEM

TOOLS ORGANISED STRAIGHT AND ACCESSIBLE

Tool-Loops System

Is an innovative plastic tool rail. Allows user to place all kinds of different tools without adjusting the loops. High quality material ensures long-lasting quality and durability. Accommodates a wide variety of tools thanks to combination of different sizes of loops, single or twin row system lets you easy place bigger or smaller tools into the right loops.

WATERPROOF BOTTOM

KEEPING YOUR TOOLS WELL PROTECTED

Waterproof Bottom

A high quality tool bag solution; the wear-resistant and waterproof bottom keeps tools dry and protected from damp and wet surfaces. The reinforced plastic base makes it as easy to keep your bag clean as it is to keep it tidy.

Various sizes

The unique waterproof bottom also features on the Ultimate Open Tool Tote, Ultimate Gate Mouth Tool Bag and the Backpack Tool Organiser.

ELASTIC LOOPS

FLEXIBLE AND SECURE TOOL PLACEMENT

Elastic Loops

This system has been designed to hold a large number of hand tools and accessories in the best order and condition. Well organised tools help to get the best results in everyday work!

Stay organised

Elastic loops are installed in nearly all of Makita's bags, pouches and holders, allowing you to stay organised whatever the situation.

*Tools and accessories are not included.
