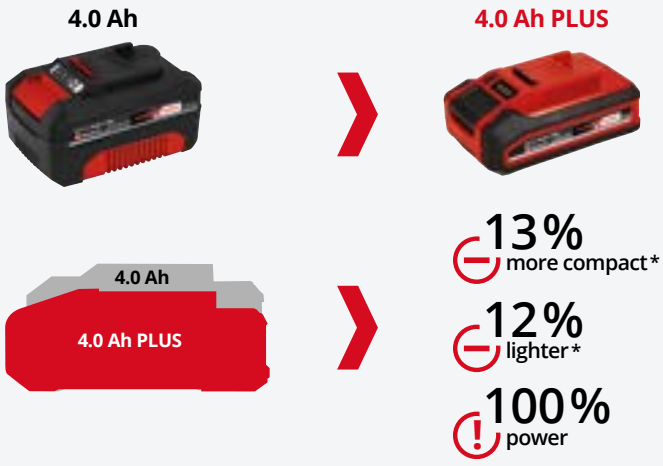
4.0 Ah BATTERY – 4.0 Ah PLUS BATTERY. WHERE'S THE DIFFERENCE?

By switching to the new "21700" cell format (21 mm diameter, 70.0 mm length) our latest Power X-Change batteries have acquired the best combination of power/running time and weight.

Why? Using this cell technology it is possible to achieve the same power and running time with five cells instead of the previous ten.

Benefits? The new batteries are 12 % lighter and 13 % more compact than their predecessors – at 100 % power and running time.

Results: Light-weight all-rounders for energy-intensive applications such as in cordless chainsaws.



* In comparison to the conventional 4 Ah battery
