Two-Device Antenna Amplifier (DVB-T / DVB-T2 / DVB-C)
for connection of two receivers (TV / radio)

- ideal for signal amplification and level adjustment for long signal paths
- active distribution of the antenna signal
- compensation for distribution and line losses
- with integrated power unit 230 V
- suitable for cable network

67226 Retail Box

Goobay
SAT-Inline amplifier 950 MHz - 2400 MHz
SAT inline amplifier to boost the signal on long distance

- connection by F sockets
- powered by the receiver via coaxial cable
- voltage: 15 V DC (+/- 3 V)
- gain: 20 dB
- noise figure: max. 4.5 dB

67056 Bulk

Goobay
SAT/BK-Inline amplifier 47 MHz - 2400 MHz
SAT inline amplifier to boost the signal on long distance

- connection by F sockets
- powered by the receiver via coaxial-cable
- voltage: 15 V DC (+/- 3 V)
- gain: 20 dB
- noise figure: max. 4.5 dB
