Product data sheet
Characteristics

LV429441
communicating motor mechanism - MT100/160 - 220..240 V 50/60Hz

Main

Range of product	NSX100...250
Device short name	Communicating motor mechanism module with SDE adaptor

Complementary

Control type	Communicating
Control signal type	Impulse Maintained
[In] rated current	100 A 160 A
Control circuit voltage	220...240 V AC 50/60 Hz
Response time	< 600 ms opening < 80 ms closing
Maximum operating frequency	4 per minute
Power consumption in VA	≤ 500 VA closing ≤ 500 VA opening
Locking options description	1 to 3 padlocks Ø 5 to Ø 8 Padlocking in OFF position

Environment

RoHS EUR status	Will not be compliant

The information provided in this documentation contains general descriptions and/or technical characteristics of the performance of the products contained herein.
This documentation is not intended as a substitute for and is not to be used for determining suitability or reliability of these products for specific user applications.
It is the duty of any such user or integrator to perform the appropriate and complete risk analysis, evaluation and testing of the products with respect to the relevant specific application or use thereof.
Neither Schneider Electric Industries SAS nor any of its affiliates or subsidiaries shall be responsible or liable for misuse of the information contained herein.
