DEWALT 18V XR Sub Compact Recip Saw – Bare Unit

DCS369N-XJ

- DEWALT Brushless Motor for extended run-time, reliability & durability
- Sub compact saw allows better access to hard to reach cuts
- Compact gearbox design helps to deliver very low vibration of 5m/s²
- 16mm stroke length and 0-3000spm for excellent cutting performance
- LED light for improved visibility of cut line and work piece
- Quick and easy tool free twist action keyless blade change
- Pivoting shoe for more control when cutting
- Ergonomic handle and rubber over mould to provide ultimate end user comfort
- Improved balance and ease of handling due to central motor position
- Intelligent variable speed trigger & lock-off switch for quick controlled cuts and enhanced work safety

Description:

The DEWALT 18V XR Sub Compact Recip Saw – Bare Unit has been constructed to be lightweight and compact offering outstanding performance, comfort. Weighing 1.42kg, this recip saw is optimised to have the power and size to reach into tight confined spaces and is ideal for comfort in repetitive use. Capable of tackling cutting materials such as timber, composites, light sheet steel and sheet aluminum, the 18V XR battery delivers 0-2800 strokes per minute whilst being light and compact to fit into tight spaces. Built for efficiency and control, the variable speed trigger, tool-free blade clamp allows for rapid, secure quarter twist blade change for extra convenience. The pivoting shoe offers greater contact with materials and enables ultimate user control.

Specifications	
Power	18 V
No Load Stroke Rate	0-2800 spm
Max Cutting Capacity (Wood)	90 mm
Max Cutting Capacity (Steel section & Pipes)	40 mm
Max Cutting Capacity (PVC)	90 mm
Hand/Arm Vibration – Cutting Boards	8.1 m/s^2
